

Principal's Message

In this Bulletin I have a number of issues/changes to outline to you, probably the most exciting being the introduction of the new Student Executive including the Captains for the 2012-2013 period. As you would be aware from previous Bulletins, our Student Executive is chosen through a rigorous application and interview process. Once selected, the Student Executive vote for their Captains. It is with much pleasure I introduce to you our Captains for 2012-2013, – Iona McNab and Luke Coleman; and our Vice Captains, – Abbey Bromley, Tanisha Brown, Lauren Bryant, Nick Holmes, Ellen James and Emma McKenzie-Low. These wonderful young leaders are supported by the Student Executive from the year 10 cohort, these being Jordan Elliott, Georgia Fisher, Siobhan Hull, Luke McIvor, India Monaghan, Mark Peters and Jackson Vaughan. I look forward to, as always, working closely with these wonderful young leaders to enhance the governance of our school.

Next, a **change to our Uniform Policy**. From 2013 we have introduced black joggers instead of multi-coloured or white joggers. Our Uniform Committee has endorsed the change and the P&C has ratified the change in our Uniform Policy. There are abundant suppliers who provide black sports shoes and the change will make it easier to reinforce uniform compliance. Given that young feet grow quickly, there will be a six month, “easing in period” for parents to replace worn out joggers/sports shoes with black ones.

Plus, an addition to the options available for girls; – a **tie like” option** in lieu of the black traditional tie. The Student Executive 2011-2012 have designed a very nice option that will be available in 2013 from our Uniform Shop. Of course traditional ties for girls will still be acceptable. I’m sure you’ll like the change as much as the girls. Prices will be confirmed for next year.

Significant **changes to curriculum** for students in Years 7-10 will commence in 2013 for implementation into 2014. Please refer to the timeline and specifics detailed later in the Bulletin. Please be assured Head Teachers and related staff have been involved in the consultation process and are keen to begin writing new programs to accommodate the changes.

At the end of Term 3 we celebrated the success of our current Year 12 exiting group and congratulated the students who had excelled in their preparation for the final HSC examinations and school based assessments. Each year we acknowledge the student who has excelled in school based assessments as **Dux of Year 12**. The process we use to determine this prestigious award is published in this Bulletin. This year we have initiated a second prestigious award to recognise the student who scores the highest ATAR in the current HSC year. This award will be presented to the successful student at an appropriate assembly early in the following year. Given that we no longer have a Year 10 School Certificate and Dux we thought it appropriate to have two awards tied to each year’s HSC Dux of the school’s assessment program

and Dux of the externally examined HSC. I look forward to sharing this additional Dux position with you.

For those who did not attend the Year 12 Graduation this year, our Dux of the school's assessment program was **Anita Sugo**: first in Physics, Mathematics Extension 1, Mathematics Extension 2 and Chemistry, and 6th in English.

Another significant change for 2013 relates to the **Digital Education Revolution** (DER). You may, or may not be aware that the Federally funded DER program finishes at the end of 2013. Thus, the roll-out of laptops ceases. So too the technical support provided by our Technical Support Officers (TSO). After a great deal of discussion at executive level in relation to the sustainability of the program after 2013, it has been decided that the Year 9 cohort in 2013 will not be issued with personal laptops to take home.

Laptops will be assigned to the school for 2013 but these will not be issued to students. They will be available as a "pool" resource for students to use as the need arises, as determined by their teachers. This decision has not been easy. It has been framed around the concern that if we allocate laptops to each individual student, TSO support will not be available in 2014 for the maintenance of the hardware. We live in hope that the DER Federal Government Program will continue but this is not our understanding and we need to make the hard decisions early so as to avoid a catastrophic collapse of a resource. I'm happy to field your concerns but unfortunately there is not a lot we can do as a school to change the demise of funding to the DER program.

Finally, some congratulations.

Congratulations to **Matthew Skinner** (Yr 12) who has been selected in the 2012 NSW Institute of Sport Water Polo Squad. Well done Matt! **Kara Kelly** (Year 12) has been selected to attend the University of Newcastle Girls' Choices Summer School from 2-6 December, 2012. Well done Kara! Congratulations also to **Stephen Morrison** (Yr 9) who has been selected to attend the University of Newcastle "LIVE IT" program from 9-13 December, 2012. Well done Stephen! Have fun! Congratulations to **Mikaela Hide** (Yr 12) who has achieved her Black Belt in Karate after 7 years of hard work. Wow! Well done! **Dominic Bizzari** (Yr 12) has been selected to tour Brazil and Argentina as a member of the 2012 School Sport Australia Football Team

early in 2013. Well done Dom! What a finish to your HSC year. Good Luck!

Finally, congratulations to Warners Bay High! We had 29 students participate in the University of NSW English Educational Assessment International Competition. Overall, we were awarded 4 Distinctions, 9 Credits and 16 Participation Certificates. Well done students' and thank you Ms Curran for your drive and enthusiasm in co-ordinating our students' participation.

In summary, a lot is happening and great things are being achieved. Thank you for your ongoing support.

WARNERS BAY HIGH SCHOOL

Dux of Year 12 - School Based Assessment

Process:

1. The Dux of Year 12 is determined by the rank of students in each HSC Board Developed course.
2. The rank recorded on the end of course or Yearly Report will be used. This will include reports for Board Developed courses provided by other accredited educational institutions and private providers eg. Distance Education, TAFE.
3. The Dux process will be conducted in Week 9, Term 3
4. The Dux of Year 12 - School Based Assessment will be determined through the calculation of the best 10 Board Developed units.
5. The best 10 units will be calculated as follows:
 - a) All subjects will be 'broken down' into single units
 - b) For subjects with a candidature of 50+ students, the top 10 ranks will be used
 - c) For subjects with a candidature of 25 - 49 students, the top 8 ranks will be used
 - d) For subjects with a candidature of 10 - 24 students, the top 6 ranks will be used
 - e) For subjects with a candidature of 1 - 9 students, the top 3 ranks will be used
 - f) The mark allocated to each rank will be as follows:

Rank	Marks per unit
1	10
2	9
3	8
4	7
5	6
6	5
7	4
8	3
9	2
10	1

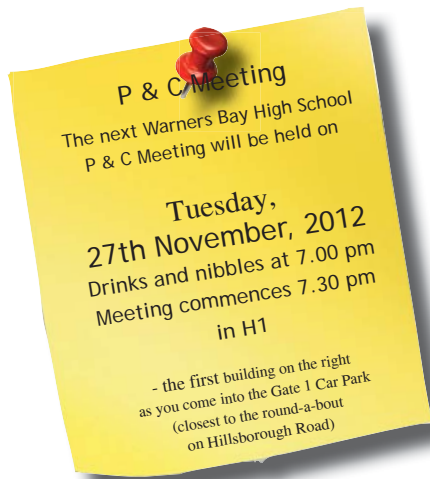

6. If there are two or more students with the highest score when calculating the best 10 units, the Dux of Year 12 - School Based Assessment will be determined by the student as:
 - a) The highest score when the formula outlined above has been applied; and
 - b) The highest number of 'first rankings' in courses studied. Rationale for this change: Subject = Mathematics, Course = Extension 1, Extension 2, Advanced etc.

STEVEN HERRICK

Thursday 30 August, the Australian poet Steven Herrick gave a presentation to year 9 and 10 classes.

I'd never seen a poet perform his work before and his delivery was amazing, he was a really natural speaker. He didn't speak down to any of us and involved the audience with his poetry. Steven Herrick performed his poetry to us and his work came to life as he spoke. He explained to us how he wanted to write his poems exactly the way he talked and he showed us the different techniques he used to write poems. It was a fun experience and if I had the chance I would go and see him again.

Charlotte Johnson - 9.05

The next meetings of the Warners Bay High School P&C Association will be our last meeting for the year. It will be held in room H1 on Tuesday, 27 November at 7.00pm for a 7.30pm start. At 7.00pm we will again start with some social time where everyone can talk over a drink and something to eat.

Parent support makes it easier for the P&C to achieve its objective of supporting the Principal and staff in the delivery of a high quality education for all those attending the school. This enables each student to achieve their personal best educational outcome. Fund raising through the operation of the school canteen enables us to provide additional teaching aids, facilities and equipment for the benefit of all students.

The canteen handed over another \$10,000 at the October meeting. This makes a total of \$60,000 for the year! This has enabled the P&C to donate \$60,000 to the school to support the faculties and provide additional resources for our kids. I would like to again thank Wendy and Marge for their management of the canteen, but the success of the canteen would not be possible without the dedication of our volunteers. The P&C would like to thank the volunteers for the great job they do. It is the volunteers who keep the canteen open and running smoothly.

We are continuing our monthly meeting presentations at our next meeting with a presentation by the Triple E class. Why not come to a meeting and use the opportunity to obtain additional information on school programs and get to know the Principal, some of the school executive and other parents in the relaxed atmosphere of a P&C meeting.

We look forward to your continued support and hope to see you at our next meeting.

Phillip Jones

PERMISSION TO PHOTOGRAPH

Dear Parents/Carers,

During the course of the school year there are occasions when photographs of groups of students are printed in local newspapers or school publications, and images are also presented on our website. It is the Department of Education and Communities' policy to obtain permission from the parent/carer for these photos to be included in such publications.

With a school size of approximately 1350 students, it is quite time consuming to telephone parents on each occasion to gain permission. Therefore, I would like to ask all parents/carers who do **not** wish their child to be photographed under any circumstances, to please inform us in writing as soon as possible.

For individual photographs and interviews, students will continue to be asked if they are prepared for the photograph and/or interview to occur, and parents will be contacted.

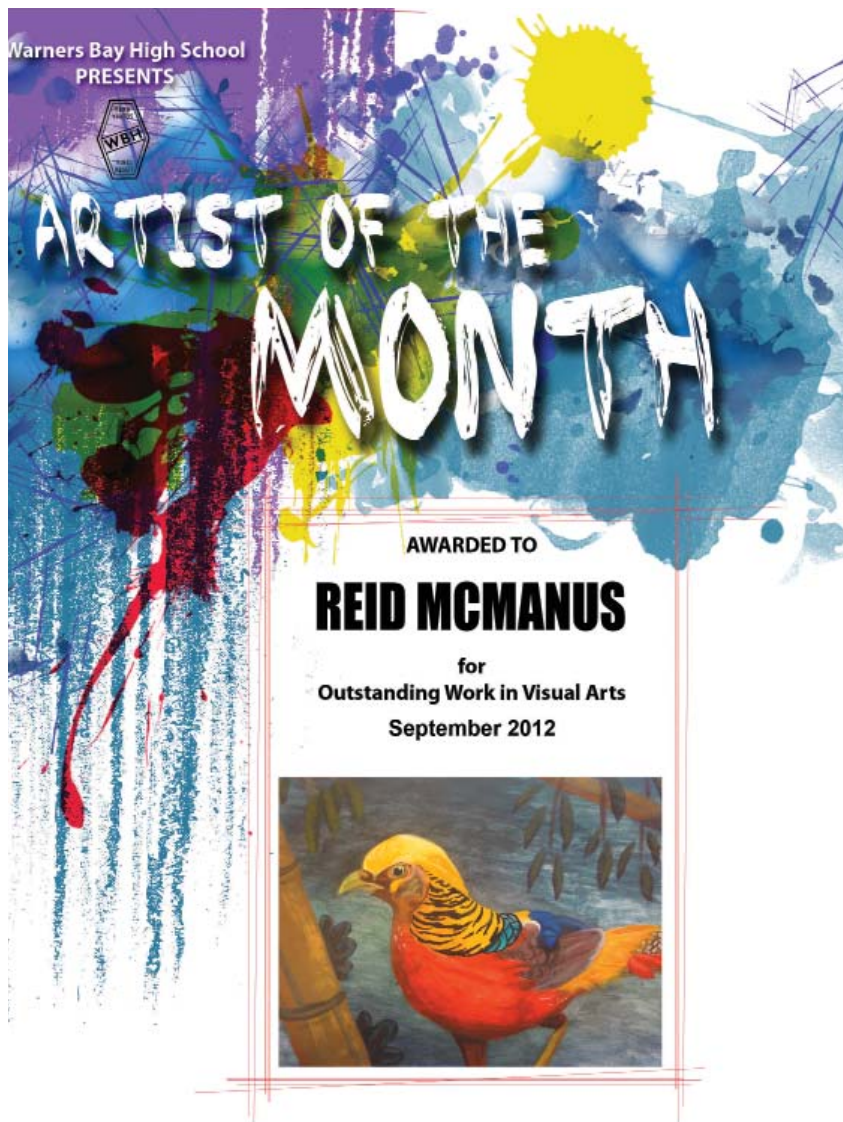

If you have any queries please do not hesitate to phone us on 0249 549488.

Dr Sharon Parkes

Warners Bay High School has again demonstrated its excellence in Photography with Chiara Harris, a Year 9 Photography student winning the NSW Face Art Competition that was sponsored by Clearasil. Chiara has won a Panasonic Lumix camera valued at over \$500 and her photograph is clever and a standout winner! Congratulations Chiara on the success at such a young age. A big thank you to the Photography teachers, particularly Miss Dorsett who facilitated the students entries into this competition.

Congratulations also to Reid McManus of Year 9, who was chosen as this month's Artist of the Month. Each month the Visual Arts teachers have a discussion and a look at a variety of class work then we choose a student from Visual Arts, Photography or Ceramics who we feel is technically and conceptually excelling in the classroom. I am sure that all of the Visual Arts teachers will agree that Reid's drawing skills are outstanding and reflect the technical ability of someone much older with years of training. Well done Reid!

Our School Concert Band and Stage Band recently performed in the Lake Macquarie BandFest and were highly commended in both categories. The band's performances were very successful and reflected a sophisticated repertoire and very strong technical skills. Mr English is to be commended for his efforts with these two bands and his dedication and passion for the genre are delightful. Well done Mr English and well done Concert and Stage Bands.

Our Semester Two MADD night will be held in Week 8 of this term and will once again feature the Warners Bay High School Talent Quest. This promises to be a fabulous evening and I would like to extend an invitation to all members of our school community to attend. Years 7-10 artworks will be on display along with the finals of a very hectic and hotly contested Talent Quest.

CAREERS

Try - a - Skill

A group of 35 Year 9 students participated in the Try-a-Skill excursion this year. This event takes place at the Newcastle Jockey Club. Students get to talk to apprentices and employers and ask questions relating to a wide range of trades and careers. They enjoy the hands - on approach which is such a feature of this event.

Year 8 Tax File Number Applications

In Week 8 students will complete tax file application forms in their English classes. Students will be given a letter and form by their roll call teacher explaining the benefits of obtaining a tax file number and the process involved. Students will need to supply their birth certificate number for the purposes of filling in the TFN form.

Year 10 University of Newcastle / Hunter Institute of Technology Excursion

Year 10 students will have the opportunity to experience life on campus at Newcastle Uni and the Hunter Institute (Glendale and Belmont) campuses. Students will have a guided tour of the campuses and will have the opportunity to ask questions about courses. This is part of our tertiary awareness program.

QLE 2012

The Quality Learning Expo is a Year 10 program that will take place in Week 6 - Tuesday, November 13 – Friday November 16. Information about the QLE had been mailed to Year 10 parents. There is also information on the Careers section of the Warners Bay website. We wish the students well with their interviews. If students or parents have any questions about the program they can contact Mr Alexander.

Tertiary Course Information for next year's students who are interested in University or TAFE courses is still available and students should make an appointment with Mr White or Mr Alexander

Careers and Transition

The Careers and Transition team has been working on individual counselling and small group work addressing career goal setting and work experience. We have established partnerships with Plan-it Youth. This program has been running this term, providing students with new skills and knowledge.

SOCIAL SCIENCE –

Yr 9 and 10 Marine Studies Excursion

On 12 October, 2012, students from Years 9 & 10 Marine Studies elective classes went on an educational excursion to Taylor Made Fish Farms and the Australian Shark and Ray Centre; both on Marsh Road at Nelson Bay.

The group visited the fish farm for the first half of the day where we were given a private tour of the aquaculture farm. Here, they raise Barramundi to 'plate size' ideal for distribution. On the tour, the company's practices, daily routines and methods for sustainably growing the fish were explained. The recycled water from the fish tanks is used to grow hydroponic vegetables. The initiative and large scale of the business were interesting, with a highlight of the tour being the opportunity to meet and feed 'Big Barry.'

After an exciting and interesting hands-on tour of the fish farm, the group headed down the road to the Shark and Ray Centre and the opportunity to swim, feed and interact with fish, sharks, and stingrays of varying sizes. Many were unable to resist this offer. Meanwhile others used rods to feed the fish. An unforgettable experience which was thoroughly enjoyed by all.

This has been a tiring and rewarding experience which has enhanced and given great detail and understanding to many of the concepts which have been learnt in class – with the addition of a fun, and interactive way of learning.

Social Science - International Studies

The Year 9 International Studies students have spent time learning about the major religions of the world. We have investigated Christianity, Hinduism, Islam, Buddhism, Judaism and a number of Chinese religions.

As a class we have participated in activities significant to each of the belief systems. Starting on 20 July, followers of Islam were strictly following Ramadan.

Ramadan is the ninth month of the Islamic calendar, and a time when Muslims across the world will fast during the hours of daylight. It is a time when Muslims try to give up bad habits and practise fasting which is intended to help teach self-discipline, self-restraint and generosity. It also reminds people of the suffering of the poor, who may rarely get to eat well.

The end of Ramadan is marked by a big celebration called 'Eid-ul-Fitr', the Festival of the Breaking of the Fast.

To mark this cultural event we decided to hold a feast of our own. Students took the time to share with fellow classmates an assortment of breads and dips to mark the end of Ramadan which occurred on 18 August.

TTT Project

Talent, Treasure, Time

For the past two terms Kate Morris, Hannah Moses and Matthew Meisenhelter from Year 9 have had the opportunity to be involved with the TTT project. This required them to come up with a project idea that would benefit their school or community. It is a volunteer-based project and students were required to meet with Mrs Hart on Monday lunch times to discuss their project's progress.

Their project was based on educating people about the dangers of unsafe drinking water. Their original plan was to stock "Thank you" Water in our school canteen, but as this was not possible, they were forced to use their creativity and resilience to find another way to address this crisis. They decided that the best way was to embrace technology and they did this through placing an informative animation on YouTube.

Check it out: Everybody deserves clean water-TTT project on

<http://www.youtube.com/watch?v=a12IcYifsm>

But it didn't stop there. To encourage people to view their message they have started a Facebook page and have sent the video link to friends and friends of friends. They also involved the SRC in a pamphlet drop, educating the local community about the dangers of unsafe drinking water. They have plans to make it global and are approaching 'The Project' and 'The Circle' to see if they can get media support.

The team have some ideas about fundraising in the future to help this cause, so keep an eye out if you'd like to help. Please get involved by watching the YouTube clip. The team are in the process of developing more animations and videos for this channel, so subscribe to keep up to date. We are also hoping to put their TTT presentation and video diary on the school website so you can all have a better idea of what they have been doing.

I would like to thank each of these students wholeheartedly for their magnificent efforts. They went above and beyond what was expected and absolutely outshone the competition.

They can be so proud of their resilience and positive attitudes throughout this process. Warners Bay High School is a better place because of students like these.

If you would like to get involved with the TTT project, or would like more information on how to help, please see Matt, Hannah, Kate or Mrs Hart in the TAS staff room.

Warm regards,

Mrs Hart

FRANCE '2012 TRIP

In September this year, thirty-four students and four teachers embarked on a whirlwind tour of France. It was survival of the fittest: getting to the top of the Eiffel Tower in a storm; seeing how many girls could fit in one dormitory room with only one shower and two power-points; eating as many chocolate crepes and Carambars as possible; climbing 500 steps to get to the top of Mont Saint Michel; squashing as many suitcases as possible into one taxi; and playing soccer in as many different locations as permitted, or not....

We also made new friends at a high school in Amiens with whom we will keep in contact. Robert de Luzarches Lycee (High School) is situated to the north west of Paris and is a private school with international links and a strong English department. The students and staff we spoke to were keen to see us again and maintain links with a view to possible future exchanges. Apart from meeting their email buddies, the students were impressed with the three course lunch that the students sit down to every day – a bit of a step up from a sandwich!

Almost all of the teachers stayed awake through the late session at Moulin Rouge. It was worth it for the spectacle and experience, and it finished off a lovely day in Paris seeing the Mona Lisa, walking the Champs Elysees and finding our way through the Arc de Triomphe.

It is great to be able to say that a lovely time was had by all, even the teachers, because all of the students were responsible and responsive in sometimes challenging situations. Deadlines had to be met, clothes had to be sorted, money had to be organised...

A great time was had by all. – This was definitely a school excursion that no-one will forget!

Mrs L Sherwood

Located 5 John St, Warners Bay

JAPAN 2012 TRIP

Tokyo, Harajuku, Shinjuku, Shibuya, Kyoto, Hiroshima and Miyajima...all in twelve days! During September this year, nineteen students experienced Japanese home life and school life and saw both modern contemporary Japan and historic traditional Japan. They paraded around in kimono, got close to the Big Buddha, caught four Bullet trains, queued up at Disneyland, munched on octopus balls and slurped green tea ice cream. They crossed the road at Shibuya, got crushed on a train during rush hour and survived a typhoon! They were humbled by the Atomic Bomb Museum in Hiroshima and marvelled at centuries-old temples and shrines in Kyoto.

The students were able to see so many things that were new, exciting, different and unusual, and best of all, they were able to put into practice the language they had learnt in the classroom. The 2012 Japan Trip was an outstanding success in every way.

PARENTS' GUIDE

TO THE NEW NSW K–10 SYLLABUSES

WHAT IS THE AUSTRALIAN CURRICULUM?

The Australian Curriculum, Assessment and Reporting Authority (ACARA), in collaboration with states and territories, has developed agreed Australian curriculum for English, Mathematics, Science and History. Each of these learning areas includes content statements that represent essential learning for all Australian students.

HOW IS AUSTRALIAN CURRICULUM BEING IMPLEMENTED IN NSW?

In NSW, the Board of Studies has worked closely with teachers and key education stakeholders to develop syllabuses that include Australian curriculum content and further detail that clarifies learning. As a result of this work, Kindergarten to Year 10 syllabuses provide direction to ensure greater consistency between NSW schools.

WHEN WILL THE NEW SYLLABUSES INCORPORATING AUSTRALIAN CURRICULUM BE TAUGHT IN NSW?

Year	K–6	Years 7–10
2013	All schools in NSW will continue to teach the current syllabuses.	
2014	All schools will teach the new English syllabus. The teaching of the new Mathematics, and Science and Technology syllabuses is optional.	For Years 7 and 9, all schools will teach the new English, Mathematics, Science and History syllabuses.
2015	All schools will teach the new Mathematics, and Science and Technology syllabuses. The teaching of the new History syllabus is optional.	For Years 8 and 10, all schools will teach the new English, Mathematics, Science and History syllabuses.
2016	All schools will teach the new History syllabus.	

WHAT WILL MY CHILD LEARN AT SCHOOL?

The new syllabuses build on the strength of the existing NSW curriculum. Many features of the new K–10 English, Mathematics, Science (incorporating Science and Technology K–6) and History syllabuses are retained. Literacy and

numeracy remain important areas of focus in K–6, where essential foundation skills are developed.

The syllabuses identify the knowledge, understanding, skills, values and attitudes that students are expected to develop in each learning area. They are designed to provide flexibility for teachers to develop their teaching and learning programs to meet the needs of their students.

English

- Students build on and refine their language skills through activities involving speaking and listening, reading and viewing, and writing and representing.
- They learn about language and literature through working with a wide range of print, spoken, visual, media, multimedia and digital texts.
- They interpret and express their views on what they hear, see and read.
- They create written and digital texts, and deliver formal and informal presentations.
- Students study a wider range of texts that give them experience of quality literature, Australian works, multiculturalism, Aboriginality and Australian identity, and Asian perspectives.

Mathematics

- Students develop their mathematical knowledge, skills and understanding through a range of learning experiences across:
 - number and algebra, eg financial mathematics, ratios and rates, and equations
 - measurement and geometry, eg angle relationships, trigonometry and Pythagoras' theorem
 - statistics and probability, eg data collection and representation.
- They develop their problem-solving skills, and mathematical reasoning and communication.
- Students develop a deeper understanding of statistics and probability.

Science

- Students develop their skills in science inquiry through hands-on practical experiences, including student research projects.
- They further develop their understanding about how evidence-based scientific knowledge explains the Physical World, Earth and Space, the Living World and the Chemical World.
- Students learn more about the importance of the contribution and influence of science in their own lives and in finding solutions to personal, social and global issues.

History

- Students gain a broad understanding of world and Australian history from ancient to modern times through the teaching of historical overviews.
- They gain a deeper knowledge of history through the study of depth studies such as Ancient India, the Ottoman Empire and Japan under the Shoguns.
- Students learn about 20th century Australian history through the Australians at War and Rights and Freedoms depth studies.
- They experience an inquiry-based approach to learning, developing key historical skills in research, source analysis and communication.

In addition to subject-based content, all syllabuses address important contemporary themes and general capabilities as students prepare to live and work successfully in the 21st century. These include Australian curriculum cross-curriculum priorities and general capabilities and other learning across the curriculum areas identified by the Board of Studies.

Cross-curriculum priorities	Aboriginal and Torres Strait Islander histories and cultures Asia and Australia's engagement with Asia Sustainability
General capabilities	Critical and creative thinking Ethical understanding Information and communication technology capability Intercultural understanding Literacy Numeracy Personal and social capability
Other learning across the curriculum areas	Civics and citizenship Difference and diversity Work and enterprise

UNIFORM SHOP TALK

A big thank you to all the families who took advantage of the 20% off sale last term. It was a very busy time, so I thank you for your patience.

Our big order has now arrived so we have every item in all sizes once again. If you missed out on anything during the sale, now is the time to come in and pick up those last few items.

All the senior jerseys have now been ordered. They will arrive early next year. I will put out a note to let everyone know when they are here.

PRICE RISE

For the first time since the Uniform Shop opened over six years ago, Daylight Sportswear has increased prices on some items by a few dollars. We have new price lists in the Uniform Shop as well as here in the Bay Bulletin.

SENIOR POLO

Senior polo shirts are in stock in all sizes. Come in and buy a few for next year. Year 11 and 12 students have the option of wearing their white custom polo shirts or the blue senior polo. They are \$38.00 each.

NEW YEAR 7 IN 2013

Year 6 Orientation Day will take place on Friday 30 November. The Uniform Shop will be open from 8.00am – 4.00pm.

Year 6 Parent Information Night will take place on Thursday, 6 December. The Uniform Shop will be open 12:00 – 9.00pm.

PAYMENT

Payment can be made by cash or EFTPOS. Cheques are no longer accepted.

Orders can be made over the phone and paid for by credit card.

OLD UNIFORMS

If you have any old school uniforms in wearable condition, please bring them into the Uniform Shop or Front Office and they will be donated to the Welfare Department for families in need.
